Please join me on Wednesday, August 18, 2021 at 7 p.m. for our next project update. I will address our progress installing the RW-21 groundwater treatment system (piping in residential streets, installation of mechanical equipment to support our three extraction wells, and construction of the treatment building).

I will also provide an update on the progress we have made with our thermal remedy at the Bethpage Community Park.

New York State Department of Environmental Conservation Project Manager Jason Pelton, New York State Department of Health Project Manager James Sullivan, and representatives from the Town of Oyster Bay will join us.

After my formal presentation, we'll respond to questions via Zoom and telephone. If you have any questions for the meeting that you would like to send us in advance, please reach out to Dianne Baumert-Moyik via mobile at (516) 754-2645 or via email at [dianne.baumert-moyik@ngc.com](mailto:dianne.baumert-moyik@ngc.com).
