January 8, 2020

Dear Neighbors,

As part of Northrop Grumman's ongoing efforts to provide up-to-date information about our environmental activities in the area, we invite you to attend our next information session on **Thursday, January 23, 2020, beginning at 6 p.m. at the Bethpage Community Center, 103 Grumman Road West, Bethpage, NY 11714.**

The purpose of this meeting is to update you on our New York State Department of Environmental Conservation (NYSDEC)-approved projects that are already underway and those planned in the coming months. Project leaders from the NYSDEC and the New York State Department of Health as well as the Town of Oyster Bay will join us at our meeting.

Northrop Grumman continues to work closely with NYSDEC, the Navy, federal, state and local government authorities and the community to address environmental conditions in Bethpage through scientifically sound, targeted and effective remedial approaches that protect the health and well-being of the community and avoid unnecessary disruption.

If you would like to RSVP or have questions before the meeting, please contact me at (516) 754-2645 or via email at dianne.baumert-moyik@ngc.com. Project Director Ed Hannon and I look forward to seeing you on Thursday evening, January 23, 2020.

Information about our project work is available at www.northropgrumman.com/bethpage.

Thank you.

Sincerely,

Dianne Baumert-Moyik
